RATIONALE

Public and private sector organizations throughout the world are increasingly concerned with improving occupational safety and health (OSH). In both developed and developing countries, the rapid pace of technological change, combined with the persistence of unsafe or environmentally threatening working conditions, has served to focus attention on the need to create a safe, healthy working environment and to promote a new safety culture at the workplace. Organizations increasingly seek OSH professionals who can catalyse these processes, and it is not always easy to find professionals with the right skills.

Becoming a safety and health professional requires multidisciplinary training. The OSH profession calls for a broad-based educational background combined with specialized knowledge in physical sciences (medicine, physics, chemistry and engineering) and social sciences (behaviour, motivation and communication) together with the principles and concepts of management.

Accordingly, the Sahid University Jakarta is offering a Master course in Occupational Safety and Health. This one and half year programme, to be held in English, includes a self-study learning phase and a face-to-face period for the preparation of the examination and dissertation.

The proposed programme combines the advantages of the academic experience and the international training experience in OSH. An international approach has been applied to the contents, the methodology development as well as to the composition of the training team. Furthermore, it also offers a range of learning situations in which participants can enhance their analytical and problem-solving skills.

OSH professionals need a multidisciplinary background to successfully operate in the broad field of OSH, therefore the programme incorporates training sessions on all of the topics and disciplines relevant to OSH. The training focuses not only on OSH issues but also on the development of organizational, managerial and interpersonal skills.

MASTER IN OCCUPATIONAL HEALTH AND SAFETY MANAGEMENT

OBJECTIVES

GENERAL OBJECTIVE

Develop the required competences for effectively managing safety and health in the workplace.

SPECIFIC OBJECTIVES

At the end of the master programme, participants will be able to:

- Organize the efforts of an enterprise to improve its OSH.
- Formulate, implement and evaluate a safety and health management system for an enterprise, incorporating essential OSH concepts and fundamental techniques of OSH management.
- Manage the resources to conduct all prevention activities that are required in an OSH management system.
- Advise employers and workers on the OSH technical requirements of OSH and on the decisions to be made for an adequate management of the OSH.

PARTICIPANTS' PROFILE AND REQUIREMENTS

PARTICIPANTS' PROFILE

The course has been specifically designed for hygienists, physicians, chemists, engineers, inspectors, practitioners and officers with a university degree but without previous specialization in OSH, who are working, or wish to work, as OSH specialists.

PARTICIPANTS' REQUIREMENTS

The following are essential for admission to this programme:

- A first university degree of a minimum three years' duration;
- A working knowledge of spoken and written English;
- The ability to use and access a computer with Internet.

CONTENTS, METHODOLOGY AND RESOURCES

The Master course will have three semesters, each consisting of 06 months of distance learning study and a final phase of 06 months for the preparation of the dissertation.

MODERN METHODS

Learn by doing, through case studies, quizzes, and assignments

INSPIRING DISCUSSIONS

Exchange ideas with international students and faculty

HIGH-LEVEL RESOURCES

Engage with experts from the University and other international institutions

INTERNATIONAL STUDENTS

This degree programme is available to international students via Distance Learning mode through partner institutions.

COURSE ACCREDITATION

BAN-PT Accreditation

The course is fully accredited at national level by the National Accreditation Body of Higher Education Indonesia at Magister Manajemen (Master Degree) level.

http://banpt.or.id/direktori/prodi/pencarian_prodi.php

BCSP (USA) Recognition

Course is also listed in Board of Certified Safety Professionals (BCSP) USA Qualified Equivalent Program (QEP) to become Transitional Safety Practitioner (TSP) who can directly sit for Certified Safety Professional (CSP) exam.

Course duration: 01 Year and 06 Months – Two taught semesters and one self-study semester (Blended Learning - 55% class based. 45% self-study)

Sr.	Module	Credits	Stage
1	MODULE OHSM 10 (C)	15	PG Certificate
2	MODULE OHSM 20 (C)	15	PG Certificate
3	MODULE OHSM 30 (C)	11	PG Cert./Diploma
4	MODULE OHSM 40 (C)	20	PG Diploma
5	MODULE OHSM 50 (C)	20	PG Diploma
6	MODULE OHSM 60 Dissertation (C)	60	Master
Total credit hours		141	

(C) – Core modules

COUSE ASSESSMENT

This course includes different forms of assessment, such as class exercises, assignments, quizzes, tests and examinations. Students need to ensure they have completed all the required forms of assessment at the designated time.

Assessment type and percentage of each module.

Module	Exercise and tests	Assignment	Mid-term exam	Final exam
OHSM 10	20	10	10	60
OHSM 20	10	20	10	60
OHSM 30	20	20	0	60
OHSM 40	10	10	20	60
OHSM 50	10	10	20	60
OHSM 60	N/A	N/A	N/A	100

ASSESSMENT MARKING

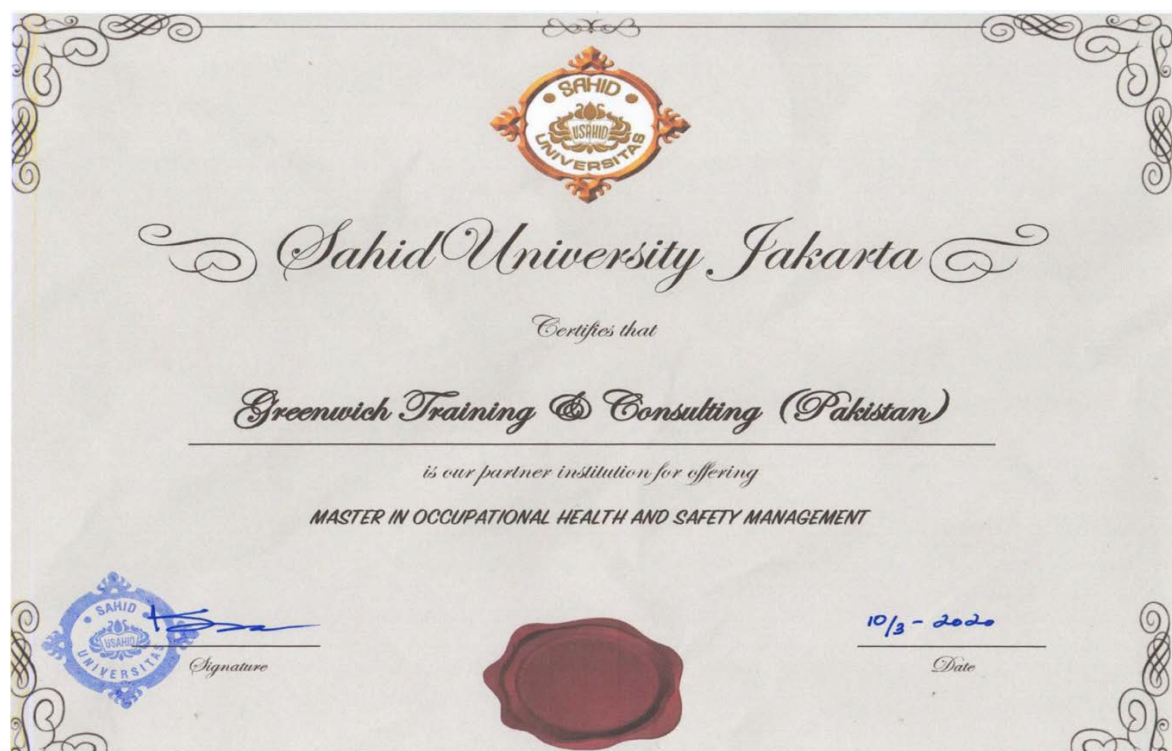

Grade Point	Grade	GPA	Remarks
86 – 100	A	4.00	Pass
80 - 85	A-	3.70	Pass
76 - 79	B+	3.30	Pass
70 - 75	B	3.00	Pass
65 - 69	B-	2.70	Pass
< 65	C+	2.30	Fail

COURSE FEES AND PAYMENT SCHEDULE

Total fee for the 2020 intake is PKR 750,000/ payable at following schedule.

Intake Spring 2020	Fee	Cutoff date
Admission	PKR 50,000	
1 st semester	PKR 200,000	
2 nd semester	PKR 250,000	
3 rd semester	PKR 200,000	
Dissertation	PKR 50,000
